

A. SOCIAL IMPACT SUMMIT 2019

AUGUST 7-10 2019
PANMURE COMMUNITY HALL

#AMPLIFYTHEIMPACT

Haere mai - Welcome to A. Social Impact Summit 2019.

Ngā mihi nui for taking the time out to come to A. Social Impact Summit. We would like to acknowledge your time and willingness to learn and share over the days you have chosen to attend.

A. Social Impact Summit is an engaging and inspiring summit series that aims to bring together people, projects and groups who work with a social impact focus and want to make a change in the world. This four-day summit will be a mixture of speakers, panel discussions, workshops, presentations, activities and networking. Our aim is to create a space where people are able to connect with others from across diverse projects and sectors and be inspired, empowered and excited about social impact and their place in it.

How did we get here?

We used a co-design process to help guide and shape the summit design. Through a series of interviews and a design session, we came out with eight golden threads to guide us and weave throughout the summit design. They are:

- Consciousness of what we do
- Growth
- Process and Systems
- Policy
- Village of people creating impact
- Eco-system
- Self
- Toolbox

We believe co-design can be a really valuable approach to harness creativity and collaboration. Co-design enables the very humans we want the summit to be for, to shape what it looks like. Thank you to everyone who was involved in the co-design workshops and interviews! This is your summit!

In the following pages you will find the programme for the four day summit. Stay for the entire four day experience or feel free to pick and choose your days and sessions.
